

STEAM Rental Kits

Wicked Cool for Kids Kits make it possible for you to roll out fun and educational hands-on science enrichment anywhere! Our rent and return kits are the perfect solution for your summer programs, parties, camps or classrooms. Kits include hands-on STEAM experiences for all kinds of learners. Help kids make real world connections to science!

**All materials are included
(8 sets for up to 16 kids in pairs)**

Rentals \$100/week per topic

- \$75 each additional week
- \$35 shipping in New England
- \$50 shipping outside of New England
- Free pick up/drop off from our office in Danvers, MA

1

LEGO Education Simple & Powered Machines

Kit includes STEM-based challenges and building: two things kids love. Using LEGO Education kits and booklets build up to 18 mechanisms that incorporate gears, flywheels, and cams to build amazing contraptions.

2

Work it Circuits

Investigate electricity, current, resistance, energy storage, and conductivity using the super cool Snap Circuit system. Work at building electronic projects that fly, buzz, light up and interact with the environment.

3

Digital Microscope Exploration

Using the awesome power of an easy to use digital microscope, explore tiny worlds around you. Go on a microscope scavenger hunt and see minute details in everyday things. Examine rocks and minerals, shells and fossils, flowers and leaves, electronics and bugs! Identify international coins and find them on a world map

4

Coding with Dash & Dot Robots

Bring the power of coding and STEM to life with Dash and Dot robots. Dash and Dot are programmable robots with personalities designed to allow kids to explore the world of robotics in a creative and interactive way. Explore coding with lights, sounds, movement, speakers and lights. A fun introduction to block based programming

5

Frog Dissection Kits

Learn about animal anatomy in a fun and safe way with these Elenco frog dissection kits. Each kit comes with a tray, a complete set of plastic frog organs, and dissecting tools. The tray includes a frog X-ray for comparison. We provide a complete step by step lesson plan.

STEAM Kits for purchase

No experience teaching STEAM? No problem! We provide comprehensive curriculum and step by step lesson plans. Curriculum support is just a phone call away. On site training at your location is available for an added fee. These easy to use kits provide a perfect hands-on science solution for your camp, classroom, or after school activity. Each lesson contains everything you need for success.

Seasonal Topic Offerings

1 Wicked Cool Vet School

Are you dreaming of becoming a superstar veterinarian? Grab your lab coat, animal adventurers, and prepare to meet your (stuffed) animal patient. Learn to recognize vital signs and emergencies in animals. Delve into dog digestion and investigate animal intestines from our favorite vertebrates: birds, mammals, reptiles, amphibians and fish. Cap off the week by using your knowledge of vertebrates to create your own new animal!

2 Hogwarts STEAM Express

All aboard the 2025 Hogwarts STEAM Express! Join us on Platform 9 $\frac{3}{4}$ for a week of science magic and fun filled learning. Engage in Potion Mastery, crafting sparkling and fizzing magical brews, and explore Herbology and the senses with real dried plants and herbs to create a potions ingredient jar. Use invisible ink like the Marauder's Map to create secret messages. Dive into Divination and make a color changing crystal ball as we look to see what the future holds.

3 Engineering Workshop

Wicked Cool engineers will be put to the task to build things that go! Explore the engineering and design process to explore and construct balloon powered cars, and magnet powered JunkBots. Design a zany zip line to take a toy on a thrilling ride, and create optical illusions with spinning tops. Engineer a path (with math) to move a marble down a run. Construct a craft stick catapult to launch koosh balls in the air.
